*There in the uplands in the cold night, drenched in rain
A loving thought comes to me and warms my body*

*Turning away and turning back, where are you my darling?
The smell of the fragrant flower, wafts to me*

Chorus:

*Where are you my beloved lei
An unforgettable lei
Where are you my beloved lei
Return to me, my love, return to me, let us be together*

*To give a kiss, to receive a kiss, a kiss sweet and lovely
The heavenly flower, is cherished*
