

E Pili Kāua

Na – Kale Hannahs

October, 2009

This song captures the playful nuances of a relationship that thrives off of humor and sarcasm. The wahine wonders where her lover is, whether or not he's thinking of her, and expresses how much she misses him. Her kane's calm yet mocking response assures her that she is fine and that he's made his way to her. Let the two of us kiss and be together.
